Seedlings

Two Years Old

God Created!

Young children don't need a complicated answer as to how the world was made or where we all came from. They are happy to know that God made it all and God made us. But making everything isn't the end of the story. God cares for us, too. Just look at how much God cares for the birds. He gives them lakes and streams to drink from and take a bath. He gives them bugs and plants to eat and materials to make their nests. If God cares that much about birds, imagine how much more he cares about us! Our world is an amazing place. We tend to forget how amazing it really is. Make sure your kids see how excited you are about God's creation. Make sure they see you taking care of it. When you care, they will care. This summer, get out and explore God's amazing creation.

God loves me!
I'm the only one like me in
the whole wide world.

CREATION

Schedule

Each week, do something simple with your child at home that follows the theme of the lesson. It's important to connect home and church.

God Made the Sky

July 26- God made the Sun
Aug. 2- God made the Moon
Aug. 9- God made the planets & stars
Aug. 16- Summer Splash

God Made the Earth

Aug. 23 God made plants & Trees
Aug. 30- God gave us the weather (snow, rain..)
Sept. 6- Lakes, Streams, Ocean
Sept. 13- Mountains

God Made Everything

Sept. 20- God Made Animals (fish)
Sept. 27- God Made Birds
Oct. 4- God made animals that hop, crawl, creep, run. God made people.
